AGRA

Agra is a city on the banks of the river 'Yamuna' in the North Indian State of 'Uttar Pradesh'. It is a major tourist destination because of its multitude of splendid Mughal era buildings, most notably the 'Taj Mahal'.

The Taj Mahal is one of the New Seven Wonders of the World. It is one of the three World Heritage Sites in Agra. Completed in 1653, the Taj Mahal was built by the Mughal King 'Shah Jahan', as the final resting place for his beloved wife, 'Mumtaz Mahal'. It is perhaps India's most beautiful monument. This perfectly symmetrical monument took 22 years (1630-1652) of labour and 20,000 workers, masons and jewellers to build; and is set amidst landscaped gardens. Built by the Persian architect, Ustad Ahmad, the Taj Mahal is located on the South Bank of the Yamuna river. It can be observed from the Agra Fort, from where Emperor Shah Jahan gazed at it, for the last eight years of his life; a prisoner of his son Aurangzeb.

The most elegant, Central Dome, of the Taj Mahal has a diameter of 60 feet (24m).
