THE CITY OF DESTINY

Sankalpa Art Village is a community-based craft space dedicated to preserving India's traditional knowledge through sustainable art, handlooms, and eco-friendly practices. Rooted in rural wisdom, Sankalpa connects artisans, natural resources and conscious living.

The village produces and sells handwoven fabrics, sarees, and clothing for children and men using natural, herbal dyes. A variety of utility products and collectibles are available, including wooden toys made from naturally lacquered upcycled wood, terracotta cutlery, items made from coconut shell.

The initiative supports local artisans and villagers, providing a platform for skill development and livelihood and preserving traditional techniques, arts and craft forms including natural dyed clothing, wooden toys, organics, herbal teas, and wellness products.

### Featured

\* Sankalpa Art Village creating local livelihood with craft \*

\* Art Village is experimenting with betel nut dye\*

\* Reviving indigenous crafts and creating sustainable community\*

\* Expanding the reach of heritage and natural crafts \*

The village hosts various workshops and experiential tours, including natural dyeing, tie-dye, and exploration of plants and nature. Visitors can observe artisans engaged in activities such as weaving and wood carving.
